Katalina Vasquez

Product, Brand & UX/UI Designer

Los Angeles, CA | hello.katalinav@gmail.com | linkedin.com/in/katalinav1 | katalinaisland.online

I build brand and product foundations, then hand them off so teams can run them without me. Started in UX/UI, now heading toward software and hardware.

Experience

Independent Product & Brand Designer

Various Clients · 2024 to present · Los Angeles and Remote

- Brand identity and design systems for early stage startups, including SLATE, a Y Combinator backed AI company: research, positioning, logo and type systems, and tone of voice.
- Designed and built client websites, social asset systems, and written documentation, including a live author site the client now runs on their own.
- Product design support: app icon design, UX feedback on in-development builds, marketing site wireframes, and pitch decks for fundraising.
- Packaging, product labels, and print collateral for consumer and food brands.

Live Stream Technician

Social Objects · 2026 to present · Freelance, Los Angeles

- Technical operations for live streams: stream setup, monitoring, and on-air troubleshooting in OBS Studio and TikTok LIVE Manager.

Co-Founder & Founding Designer

SAN Sound · Jan 2022 to Aug 2024 · Remote

- Co-founded a consumer audio startup building SANWEAR, a wireless in-ear monitor line shipped to customers in 37 countries.
- Produced manufacturer-ready production files to millimeter tolerances with Pantone specs, material callouts, and dielines, coordinating overseas manufacturing through multiple revision cycles.
- Designed packaging and user manuals for the full product line, including FCC and CE regulatory content.
- Led design on partner collaborations including TV Chosun and Supra, plus merch, email marketing in Klaviyo, and the first versions of the company website and mobile app.
- Helped build the community the product launched into: social on X, Discord moderation, and design for SAN Origin, the NFT collection.

Design Associate

Blockchain Marketing Advisors (BMA) · Mar 2022 to Aug 2022 · Remote

- Website redesign and logo refresh for the firm's visual identity, plus campaign assets for a web3 audience.

Product Designer

Wise Token (WiseSoft, LLC) · Nov 2021 to Apr 2022 · Remote

- Product design for LiquidNFTs, promoted to design lead three months in. Brought a design-skeptical engineering team into the process rather than working around them.

UX Designer, Apprenticeship

Blank & Co. · Apr 2021 to Oct 2021 · Los Angeles, CA

- Website and information design for two e-commerce clients in very different categories, industrial casters and luxury fireplaces.

Earlier

Operations Coordinator, What You Didn't See (2022) · Tech Generalist, Imperial Art Studio · Marketing Intern, Loungefly, a Funko brand (2018 to 2019) · Film and service roles, 2017 to 2021. Everyone starts somewhere.

Education & Certifications

Ironhack Design Academy · UX/UI Design, Human Computer Interaction · 2021

Yes, it was a bootcamp, and it was more thorough and hands-on than my time at a traditional university. I attended on the Uber Scholarship and graduated three months later.

Scholarship for Women in Blockchain, She(256) at UC Berkeley · 2x recipient · 2018, 2019

Mechanical Engineering coursework · Part time, transfer track · Los Angeles, CA · ongoing

Certifications: Foundations of Humane Technology, Center for Humane Technology (2021)
